

## Cut & Graze

Top quality silage production with grazing option.

- CUT & GRAZE produces top quality silage with the option to graze. It's a long-term, persistent, highly flexible mixture with clover
- *Ensign* white clover blend is included for nitrogen fixation, increased protein content and persistency
- The mixture is balanced for season-long performance with intermediate and late perennial ryegrasses included
- Maximum production by using the top yielding varieties including *Moira* and *Fintona*, both top of their classes for yield
- *Ballintoy* is included for its exceptional early spring growth (122%) and *Gosford* for its late summer growth (119%) ensuring season-long performance
- *Ensign* white clover blend is included for nitrogen fixation and increased protein content
- Contains only first choice SRUC varieties

### In the bag

5.00kg	<i>Moira</i>	Intermediate Perennial Ryegrass (DIP)
3.50kg	<i>Gosford</i>	Intermediate Perennial Ryegrass (DIP)
2.50kg	<i>Fintona</i>	Intermediate Perennial Ryegrass (TET)
2.00kg	<i>Ballintoy</i>	Late Perennial Ryegrass (TET)
1.00kg	<i>Comer</i>	Timothy
1.00kg	<i>Ensign</i>	White Clover Blend

**Sowing rate per acre:** 15kg per acre

**Sowing rate per m<sup>2</sup>:** 2,903seeds per m<sup>2</sup>
