

# Platinum Fine Turf

Golf greens, tees, fairways, bowling greens

**PLATINUM FINE TURF** is a mixture of perennial ryegrass and red fescue, designed for the construction or overseeding of fine turf under moderate wear pressure.

The “driver” of the mixture is 30% *Barolympic* perennial ryegrass. *Barolympic* is the stand-out cultivar ryegrass for summer sports use. It is ranked with a score of 8.7 in Table G4 of BSPB TGS 2021, the highest Mean score in the entire publication, and more than a full point clear of its nearest rival in G4! See Table 1.

In addition to its outstanding Mean score, *Barolympic* is ranked #1 for pale colour and #2 for fineness of leaf in Table G4. This makes it exceptionally easy to blend in with other grass species, such as red fescue or annual meadowgrass.

The red fescue cultivars *Barlineus*, *Viktorka* and *Barrisese* are exceptional performers, ranked #1, #4 & #3 in their respective tables for close-mown turf.
