

Ensign

White clover blend

- ENSIGN is a blend of white clovers, which gives better animal performance, higher milk yields and better live weight gains.
- It also produces a better quality sward, with fewer weeds and less disease
- It has an exceptionally long growing season and 'fixes' nitrogen from the atmosphere for maximum production
- By using a blend of different varieties there are always at least two that are best suited to whatever the management being applied to the sward
- Animals prefer to graze a clover / grass sward - this results in higher voluntary intakes and better animal performance
- Potential nitrogen fixation for white clover up to 150kg N/ha

In the bag

50%	Crusader	White Clover
30%	Alice	White Clover
20%	Barblanca	White Clover

Pack sizes:	5kg & 25kg packs
Sowing rate:	Up to 2.5kg per acre
