

Striker Wintersport Ryegrass blend

Turf and lawns

Fast germination and
winter growth

Excellent wear tolerance

Good disease and
cutting quality

With better winter growth than any other perennial ryegrass, Striker Wintersport is your perfect combination of speed and density for wear tolerance.

Striker Wintersport has been designed specifically for use on sports fields such as AFL, soccer, rugby and school grounds. This fine leaf ryegrass blend has very fast germination thanks to Journey ryegrass, and is complemented with high wear and recovery characteristics of Pinnacle III and Barorlando continental ryegrasses. It is also an excellent choice for revitalising council and school football grounds.

Striker Wintersport has an attractive dark green colour and is suitable for use on permanent cool season grounds or to oversow warm season fields for winter wear. This seed blend can germinate in low temperatures making it suitable for quick repair work or preparation for finals.

Composition

Species	%
Pinnacle III ryegrass	35
Barorlando ryegrass	35
Journey ryegrass	30

Key features

- High winter growth and wear
- Excellent density – leading to high wear
- Good winter growth – allowing for good recovery after wear
- Good disease resistance

Key benefits

- Very fast out of the ground – short return to training in autumn
- Fine-leafed and med-dark green colour providing excellent visual appeal

Performance

Winter growth assessment

#	Perennial ryegrass	Winter growth
1	Journey ryegrass	7.0
2	Striker Wintersport	7.0
3	Barorlando ryegrass	6.7
4	Mediterranean ryegrass	6.7
5	Striker SOS 50/50	6.7
6	Barlibro ryegrass	6.3
7	Barolympic ryegrass	6.3
8	Collosseum mediterranean ryegrass	6.3
9	Barlp (s) 6165 ryegrass	6.3
		LSD 0.8

1 = lowest growth and 9 = highest growth
