

Permanent (no Timothy option)

Intensive long-term grazing mixture with cutting option without Timothy.

- PERMANENT (no Timothy) is a mixture ideally suited for farmers who want all the benefits of a cut and graze type mixture but don't utilise their swards until later in the year
- With later heading grass varieties dominating the mixture, PERMANENT (no Timothy) will produce leafy swards of palatable grass for farmers turning stock out later in the season or cutting swards in the first days of June
- PERMANENT (no Timothy) produces a dense, leafy, persistent and easily managed ley that produces highly palatable and digestible grass.
- The tetraploid varieties in PERMANENT (no Timothy) have been carefully selected to ensure higher water soluble carbohydrate content while not sacrificing sward density
- Includes *Clanrye*, one of the highest yielding late heading perennial ryegrasses (100% of control varieties)
- Contains *Gosford*, a new variety for 2019, with excellent silage and grazing yields combined with impressive sward density

In the bag

4.00kg	Gosford	Intermediate Perennial Ryegrass (DIP)
3.00kg	Caledon	Intermediate Perennial Ryegrass (TET)
4.00kg	Clanrye	Late Perennial Ryegrass (DIP)
2.00kg	Dundrum	Late Perennial Ryegrass (TET)
1.00kg	Ensign	White Clover Blend

Sowing rate per acre: 14kg per acre

Sowing rate per m²: 2,373 seeds per m²

- Contains all Northern Ireland bred perennial ryegrass varieties
