

Extreme

Tees, fairways

Usage

Overseeding, divoting and/or construction of medium-fine turf with intense wear; tees, fairways, cricket squares and outfields

Key points

- Fineness of leaf *Barolympic* #2
- Wear tolerance *Barcristalla* and *Eurocordus*

Species Formulation

100% perennial ryegrass

EXTREME is a blend of perennial ryegrasses for use in areas of medium-fine turf that demand tolerance to close-mowing and high wear with exceptional fineness of leaf. Cricket squares and outfields, golf tees & fairways, tennis courts and high- traffic fine lawns are perfect examples of where this grass seed mix is at home.

All four cultivars bring advantages and different characteristics to the mix.

Barolympic (40%) is the stand-out cultivar ryegrass for summer sports use. It is ranked with a score of 8.7 in Table G4 of BSPB TGS 2019, the highest Mean score in the entire publication, and more than a full point clear of its nearest rival in G4!

Barcristalla is a medium-fine ryegrass with excellent wear tolerance and superior colour. It is ranked #11 for wear tolerance (Table S1) and #1 of any grass in the top-80 for year-round genetic colour.

Baromario is highly-ranked in both L1 and S1 tables of Turfgrass Seed. Its combined wear tolerance and performance at lower heights of cut are advantageous to many applications.

Eurocordus offers similar properties, with particularly high recovery rates.
