

BARRARI

kentucky bluegrass

If you are looking for the ultimate wear tolerance in a grass, you found it! Barrari is unbeatable, ranked at the top of the NTEP list in Michigan. With high wear tolerance comes fast establishment. Barrari looks good too, exhibiting a dark green color. Barrari not only makes the field look good, it also makes you look good!

Why Barrari?

- ▶ Highly rated in NTEP wear trials
- ▶ Very quick establishment
- ▶ Early spring green up
- ▶ Drought tolerant
- ▶ Low mowing tolerance
- ▶ Great disease tolerance

Barrari WEARS the best!

BARRARI

kentucky bluegrass

Poa pratensis

PLANT CHARACTERISTICS

BARRARI didn't get its name by coincidence! It germinates and establishes very quickly surpassing the Midnight-types in a number of different categories. With fast establishment comes high wear tolerance. All Barenbrug varieties must pass our wear machine selection before moving on. Our wear machine is very hard on the turf and only the cultivars that survive continue to the development stage of our breeding process. Barrari is the best bluegrass choice for your sports fields, golf courses, lawns etc.

SEEDING AND MAINTENANCE INSTRUCTIONS

- ▶ SEEDING RATE:
 - ▶ Overseeding Existing Turf2 lbs. per 1,000 sq. ft.
 - ▶ Sports turf4 to 6 lbs. per 1,000 sq. ft.
 - ▶ Tees and Fairways3 to 5 lbs. per 1,000 sq. ft.
 - ▶ Lawns, Parks & Other Areas3 to 5 lbs. per 1,000 sq. ft.
 - ▶ Sod Production70 to 130 lbs. per acre

- ▶ FERTILIZATION: For optimum results apply .50 to .75 lbs. of N/1,000 sq. ft. per application during the growing season. Requires 4 to 8 lbs. of N/1,000 sq. ft. per year. Rates may vary due to geographical differences and agronomic preferences.

- ▶ Barrari is an important component of Barenbrug's Turf Blue - highly rated bluegrass blend.
