Mow Saver

The most sustainable grass seed mixture – saves mowing

A unique low maintenance mixture utilising a perennial ryegrass that has demonstrated up to 40% slower growth than other amenity cultivars. The result is a mixture that is fast to establish, very hardwearing and possesses proven low-maintenance qualities.

- Up to 40% less mowing
- Saves money through time, labour and fuel savings
- Helps the environment by reducing machinery operations and CO² emissions

In the bag
