

## Hybrid Cut & Graze

A top quality hybrid ryegrass based ley, designed to give excellent forage cuts with the option to graze.

- An excellent cutting and grazing ley using the most persistent hybrid varieties for a full five years' production
- Designed to provide excellent spring growth, enabling an early first cut or early grazing
- Great for medium-term rotation and mixed livestock units
- Contains *Barclamp* diploid hybrid ryegrass for improved ground cover
- The high proportion of tetraploid varieties ensures better drought resistance and higher water soluble carbohydrate content
- *Fintona* is the highest yielding perennial ryegrass ever listed in the UK. First cut of 105% and total cutting yield of 110%
- Close heading date pattern to ensure uniform crop quality
- Contains only first choice SRUC varieties
