

Combi

Flexible, extensive, long-term ley suited to cutting and grazing.

- COMBI's blend of the best recommended intermediate and late heading ryegrass is designed to produce a very high-yielding, flexible, dense, palatable, long-term, top class cutting mixture which will also produce quality grazing
- This mixture is a blend of the top performing varieties which is designed to produce a very high yielding, flexible cutting and grazing mixture
- The high proportion of tetraploid varieties ensures better drought resistance and higher water soluble carbohydrate content and also gives faster recovery after grazing or cutting
- *Ballintoy* combines excellent yield and quality under silage or grazing management with excellent spring growth and high digestibility, producing a high ME yield per Ha
- *Caledon* produces excellent silage yields with high digestibility and provides quality grazing swards throughout the year
- Uses all Herbage Varieties Guide recommended varieties

In the bag

2.00kg	Moira	Intermediate Perennial Ryegrass (DIP)
2.00kg	Glenariff	Intermediate Perennial Ryegrass (DIP)
3.00kg	Fintona	Intermediate Perennial Ryegrass (TET)
2.00kg	Caledon	Intermediate Perennial Ryegrass (TET)
2.00kg	Ballintoy	Late Perennial Ryegrass (TET)
1.00kg	Ensign	White Clover Blend

Sowing rate per acre: 14kg per acre

Sowing rate per m²: 1,783 seeds per m²
