

## Bar GS4 Graze (Scotland)

### Long-term herbal grazing ley

- A bio-diversity multi-species herbal ley which will adapt and thrive in diverse locations and soil types
- This diverse mixture has been proven to provide a hardy very long grazing season for ruminants this coupled with multi legume species to fix nutrients to sustain year-long production
- BAR GS4 GRAZE comprises of 15 different species including 5 grasses, 5 legumes and 5 herbs' all of which bring a range of benefits to the biodiversity ley
- Using the flowering species in this mixture alongside the all diploid grass constituents, vital beneficial pollinators can feed and gain shelter
- These species with deep penetrating roots will improve soil structure and they have the ability to make the best use of the available soil nutrients - all available moisture & minerals - helping with animal health and reducing the need for bought-in nutrients
