Species Formulation

40% slender creeping red fescue
30% perennial ryegrass
30% Chewings red fescue

PLATINUM FINE TURF is a mixture of perennial ryegrass and red fescue, designed for the construction or overseeding of fine turf under moderate wear pressure.

The "driver" of the mixture is 30% *Barolympic* perennial ryegrass. *Barolympic* is the stand-out cultivar ryegrass for summer sports use. It is ranked #1 with a score of 8.6 in Table G4 of BSPB TGS 2019, the highest Mean score in the entire publication, and more than a full point clear of its nearest rival in G4! See Table 1.

In addition to its outstanding Mean score, *Barolympic* is ranked #1 for pale colour and #2 for fineness of leaf in Table G4. This makes it exceptionally easy to blend in with other grass species, such as red fescue or annual meadowgrass.

The red fescue cultivars in the mix are outstanding performers, including #1-rated *Barlineus* and #2-rated *Viktorka*.
