

Dairy Grazer

Intensive grassland grazing. The most cost-effective feed for dairy cows - grazed grass!.

- The ley has been developed to maximise the grazing period for cows, enabling an intensive, long-term grassland approach
- Developing high quality grassland, this mixture enables cows to graze from an early spring turnout and also gives faster recovery after grazing or cutting
- Suitable for any livestock class
- Intensive grazing
- Reduce external input costs by lowering feed requirements
- Increase grazing season
- Very long growing season
- DAIRY GRAZER is a mixture that has been designed specifically to maximise the grazing period of cows. It produces a very palatable high D value grass ley
- DAIRY GRAZER has excellent resilience and remains good through autumn and into the first phase of winter

In the bag

| | | |
|--------|-----------|---------------------------------------|
| 2.00kg | Caledon | Intermediate Perennial Ryegrass (TET) |
| 3.00kg | Glenarm | Late Perennial Ryegrass (DIP) |
| 3.00kg | Callan | Late Perennial Ryegrass (DIP) |
| 3.00kg | Gosford | Intermediate Perennial Ryegrass (DIP) |
| 3.00kg | Ballintoy | Late Perennial Ryegrass (TET) |

| | |
|---------------------------------------|--------------------------------|
| Sowing rate per acre: | 14kg per acre |
| Sowing rate per m²: | 1,713 seeds per m ² |

- Contains *Callan*, new for 2020 - excellent grazing yields with exceptional spring growth producing 14% more grass in early spring than comparative varieties and has an excellent first silage cut
- Contains varieties *Gosford* and *Ballintoy* which give higher grazing yields, quality, digestibility and impressive spring growth producing extended quality and productivity of an already top class grazing mixture.
- All the varieties in the mixture deliver superior persistency results, meaning this mixture will deliver long-term quality grazing grass for dairy cows.
