

Combi (no clover)

Flexible, extensive, long-term ley suited to cutting and grazing.

- Its blend of the best recommended intermediate and late heading ryegrass is designed to produce a very high-yielding, flexible, dense, palatable, long-term, top class cutting mixture which will also produce quality grazing
- The high proportion of tetraploid varieties ensures better drought resistance and higher water soluble carbohydrate content and also gives faster recovery after grazing or cutting
- This mixture is a blend of top performing varieties which is designed to produce a very high yielding, flexible cutting and grazing mixture
- The omission of clover in the mixture allows for cost effective weed control
- *Ballintoy*, new for 2019, combines excellent yield and quality under silage or grazing management with excellent spring growth and high digestibility producing a high ME yield per Ha

In the bag

5.00kg	Glenariff	Intermediate Perennial Ryegrass (DIP)
3.00kg	Fintona	Intermediate Perennial Ryegrass (TET)
2.00kg	Moira	Intermediate Perennial Ryegrass (DIP)
2.00kg	Caledon	Intermediate Perennial Ryegrass (TET)
2.00kg	Ballintoy	Late Perennial Ryegrass (TET)

Sowing rate per acre: 14kg per acre

- *Caledon* produces excellent silage yields with high digestibility and provides quality grazing swards throughout the year
- Uses all Herbage Varieties Guide recommended varieties
