

SUPER OVER SEEDING SUCCESS

"SOS 400's easy transition has been a tremendous advantage."

Bob Zuercher, General Manager
Blackmoor Golf Club - Myrtle Beach, South Carolina

"SOS has the same turf quality as perennial rye, transitions much better and is a smart, economical alternative."

Mike Swing, CGCS, Golf Course Superintendent
Visalia Country Club - Visalia, California

SUPER OVER SEEDING SUCCESS

Twin Creek Country Club

Great turf density and rapid germination **Austin, Texas**

Twin Creek Country Club chose SOS 211 for its superior ability to transition out in the spring. They seeded two tees on each hole at a rate of 10 lb. per 1,000 sq. ft.. The tees are currently mowed twice a week at half an inch. Twin Creek is very impressed by the turf density, quality and rapid germination. SOS 211 performed so well, Twin Creek will rely on it next season.

Whitestone Country Club

Perfect playing surface **Fort Worth, Texas**

Whitestone Country Club chose to overseed their tees with SOS 211 for optimum spring transition. SOS 211 performed very well and created a dense sward, perfect for winter play off the box. SOS 211 will be used again next fall.

Dallas Texans Soccer Club

Extreme wear tolerance **Dallas, Texas**

The Dallas Texans recently held an international tournament where 30 teams played on five fields for three days. They use SOS 211 to overseed their bermudagrass. SOS 211 held up so well that when the tournament was over, there was very little noticeable damage. In addition, they received numerous accolades on the quality of the fields from players, coaches and spectators.

Lincoln Financial Field

Overseed for year-round playability **Philadelphia, Pennsylvania**

The Philadelphia Eagles have long relied on Barenbrug to help with their overseeding needs. Now they overseed their bermudagrass with SOS 211. They chose SOS 211 for its quick germination, quality and rapid establishment. These characteristics make SOS 211 the perfect product for year-round overseeding.
