

Overseeder

Restoring long-term productivity.

- OVERSEEDER is a 100% ryegrass blend for areas of high fertility
- Forage production is expensive – get your sward back into maximum, long-term productivity by over seeding
- Increases the proportion of productive ryegrass in the sward
- Improves the quality of the grass for better animal performance
- Improves the Nitrogen efficiency of the sward
- Repairs the damage caused by poaching of grazing swards
- Specifically designed to work best with specialist overseeding techniques
- Includes varieties which are aggressive enough to establish in an existing sward, yet easy to manage

In the bag

8.00kg	Copeland	Intermediate Perennial Ryegrass (DIP)
6.00kg	Seagoe	Intermediate Perennial Ryegrass (TET)
6.00kg	Youpi	Late Perennial Ryegrass (TET)

Pack size:	20kg, two acre packs
Sowing:	709 seeds per m ²
