Spring Blends

Grow with Confidence

Regenerator™ Soil Improver

Sunn Hemp and Lab Lab mix

This mix is designed to improve soil structure, increase microbial diversity, boost soil Nitrogen and organic matter levels in the soil.

With a range of high performing species the Regenerator™ Soil Improver Spring blend is an easy off the shelf mix to get started on your regenerative journey.

Recommended sowing rate: 40-50kg/ha
Sowing timing: September – November
with soil temps at 15 C and rising

Species	%
Lab Lab	25
Sunn Hemp	25
Forage Sorghum	15
Sunflower	15
Millet	10
Tillage Radish	5
Phacelia	5

Regenerator™ Pollinator Spring

Regenerator™ Pollinator Spring blend uses species that are well known for attracting beneficial insects. These insects can increase pollination in crops, act as predators for pests and increase overall beneficial insect diversity.

This blend mixes flat, open flowers with narrow closed flowers to cater for all beneficial insect types.

Recommended sowing rate: 40-50kg/ha
Sowing timing: September – November
with soil temps at 15 C and rising

Species	%
Buckwheat	25
Sunn Hemp	25
Lab Lab	15
Forage Sorghum	12.5
Sunflower	12.5
Phacelia	5
Biofumigant Mustard	2.5
Tillage Radish	2.5

Sunflowers are excellent bee attractants

Phacelia attracts many beneficial insects
